WORK EXPERIENCE

Orion Advisor Technology   **Oct 2022 - May 2025**
Senior Software Engineer   *Omaha, Nebraska*

- Led a cross-functional team of five in the successful integration of a financial data aggregator into an investment advisor platform, owning technical direction, system architecture, and project delivery while coordinating across backend/frontend teams and third-party stakeholders.
- Engineered push notification functionality in the Orion mobile app to alert clients of new advisor-uploaded documents and newsfeed posts, enhancing user engagement and communication efficiency.

Technologies Used:
C#, .NET 8, ASP.NET Core, Python, Javascript, React w/ Redux, TypeScript, MySQL, Amazon SQS, AWS DynamoDB, AWS S3, AWS, Web APIs, Docker, Git, GitHub, Jira, Azure Boards

Meta   **Oct 2021 - Oct 2022**
Rotational Software Engineer   *New York, New York*

- Successfully executed a migration after the deprecation of an old framework that improved the privacy and security of millions of users.
- Responded to critical and severe issues relating to user experiences.

Technologies Used:
PHP/Hack, React, Python, MySQL, Git

Orion Advisor Technology   **Oct 2020 - Oct 2021**
Software Engineer   *Omaha, Nebraska*

- Developed an integration into a fintech product for financial advisors that provided better insights and data into how they can better serve their clients.
- Improved codebase maintainability through a series of refactorings that allowed future improvements such as a migration of the main WebAPI project from .NET Framework to .NET Core 3.1.

Technologies Used:
C#, .NET Core 3.1, .NET Framework, ASP.NET, Python, Javascript, React w/ Redux, Typescript, MySQL, AWS DynamoDB, AWS S3, AWS, Web APIs, Docker, Git, GitHub, Jira

Insurance Technologies   **Jan 2017 - Oct 2020**
Lead Software Developer   *Plantation, Florida*

- Designed and developed several integrations into existing internal insurance products that saved thousands of employee hours and generated hundreds of thousands in revenue per year.
- Gathered and defined requirements to deliver customized insurance solutions for clients looking to expand their insurance portfolio.
- Managed two development teams, one overseeing maintenance of existing insurance products while the other lead the successful delivery of new projects, balancing long-term support with rapid innovation.

Technologies Used:
C#, .NET Core, .NET Framework, ASP.NET, WPF, WinForms, Javascript, Angular, Typescript, SQL Server, Redis, Docker, Kubernetes, Azure Cosmos DB, Azure Blob Storage, Azure Pipelines, Azure

Boards, Azure Container Apps, Azure Function, Azure Repos, Azure, Git

Vibin   **Nov 2016 - Dec 2017**
Mobile Application Developer   *Miami, Florida*
- Worked effectively with designers to create software solutions for a social media mobile app that elevated the user experience and improved overall functionality.

Technologies Used:
   C#, Xamarin, Mono, PHP, MySQL, Azure, Trello, Git

EDUCATION

Miami Dade College   **May, 2016**
Associate of Arts in Computer Engineering   *Miami, Florida*
- Graduated with honors and a GPA of 3.6.
- Participated and performed in the concert band and jazz band.
- Accepted into the Phi Theta Kappa honor society.
